
Communication

Regulation dangerous preparations

Brussels, 26/12/2013

This communication is meant to inform about the **Regulation on classification, labelling and packaging of dangerous preparations** and how to handle them. This communication is about the application of Regulation 1999/45/EC (Dangerous Preparations Directive) which has been substituted by Regulation 1272/2008/EC (CLP).

On the basis of legal advice that BEMEFA has taken, it has been decided that Regulation 1272/2008/EC (WMS/CLP legislation) is not applicable to animal feed (and consequently not applicable to premixes). The legal advice is as follows (summarized version).

- Regulation 1272/2008 on classification, labelling and packaging of dangerous preparations **is not applicable to animal feed** including **premixes**.
- Considering the REACH regulation 1907/2006/EC, the compound feed manufacturers and premix producers **are exempt from the obligation** to prepare Material Safety Data Sheets.
